ABOUT NOTTINGHAM CELLARS

At Nottingham Cellars our mission is simple – produce premier wines by partnering with vineyards that have tailored farming regimens that best express their site. In the end, we are left with a myriad of potential blending components to build Supremacy, our flagship Bordeaux Style Red Blend, as well as **Vineyard Designate Cabernet Sauvignon's** and **Micro-Lot Reserve** offerings of the blending varieties **Cabernet Franc, Malbec, Merlot and Petit Verdot.**

MAKER'S NOTES

Blackberry and cherry cola are met with earthy tones of gravel, wet slate and shale. The wine is soft on entry, driven by dark cherry fruit and rose petals with vanilla and spice underneath. The fine grained tannins and vibrant acidity are hallmarks of the Harris Tesla vineyard. It is enjoyable now but has the tools necessary for long term aging. A splash decant goes a long way, but a full 2 hour decant is worth it if you have the patience.

PAIRING
